Environmental and Social Responsibility in the Standards of Good Practice

In an effort to address sustainability in education abroad programming, a working group of the Standards Committee has proposed changes to the Forum's *Standards of Good Practice for Education Abroad*, so that the Standards would include elements relating to environmental and social responsibility. The draft of working group's proposed changes is available for members at <http://www.forumea.org/standards-toolbox.cfm> . The members-only comment period will close shortly. All Forum members are encouraged to read the draft and to send opinions, comments, questions, and suggestions to info@forumea.org .

Portland Conference Materials Online

Catch up on the sessions you attended, and some of those you may have wanted to, but missed! Materials from many of the Portland conference sessions are now available on the Forum website at <http://www.forumea.org/Sessions09.htm> . Session leaders who have not yet submitted materials may send them to info@forumea.org .

Evaluating the Conference

The Portland conference evaluation will close Friday, March 27. There's been a great response, but we can always use more feedback! Please share your experiences with us, and let us know what worked and what we can improve for next year's conference. Lost the link? Please contact the Forum office for a link to the evaluation.

If you'd like to share this issue with your colleagues, a PDF is available at our online [Archives](#).
